FURTHER PARTICULARS (COVENTRY ACADEMY)

“We have some of the best companies and supply chains in our local area, and they all desperately need new talent and skills to help them grow. That is why the WMG Academy for Young Engineers is so important”

Professor Lord Bhattacharyya, Chairman, WMG

The WMG Academy for Young Engineers

The WMG Academy for Young Engineers is a University Technical College, for 14 - 19 year old learners, which opened in September 2014. Formed between a partnership of the University of Warwick (led by Warwick Manufacturing Group - WMG) and with the support of national, regional and local businesses such as Jaguar Land Rover, National Grid and Prodrive, who are committed to providing a better way of learning for the engineers of the future.

The WMG Academy’s focus is on engineering and digital and information communication technologies. It caters for 640 students of 14 - 19 years from Coventry, Warwickshire and Solihull. The WMG Academy initiates and supports the development of well-educated and industry trained students who not only have the qualifications but also the functional skills, knowledge and personal qualities to make an impact in the world of work and/or further and higher education.

Our Vision

We will ensure that our students have raised aspirations that will provide the motivational drive to succeed. Strong employer and further and higher education links, as well as a professional ethos and culture, will ensure the students will be in demand from employers.

Our unique status of working very closely with some of the biggest employers in the region means that we have shaped the curriculum from day one to ensure we produce students with a professional ethos and culture that is in high demand in today’s working world.

The focus of the curriculum is a series of projects – real business-focused, practical problems and challenges that reflect fully the world of work. Employers provide mentors to help our students get a full understanding of life in engineering. This ‘better way of learning’ means that education will be exciting for our students. We will give them an experience of real value; one that will lead to a diverse range of positive progression pathways for every single student.

Team working will be the norm and students will work together to develop the skills that employers value. We are committed to developing team working, problem solving, creativity, leadership, communication, resilience and an ability to respond to change. As staff, it is our role to model those skills and behaviours to our learners in everything that we do.

The Role

The WMG Academy Trust is looking for teachers who have excellent teaching skills. The successful candidate will inspire and enthuse learners with their passion, ensuring that the WMG Academy Trust outcome in these subject areas are outstanding.

You will demonstrate and demand the highest standards of delivery and you will be fully committed to raising attainment to enable all learners to achieve outstanding success.

Reporting to the Lead Teacher, you will be responsible for the planning and delivery of outstanding lessons of this specialist curriculum and will be expected to work with the engineering department to develop the employer commissions. You will provide timely feedback for students on their work to ensure they are to achieve and realise their targets. All teachers will be pastoral tutors working closely with an identified cohort of learners.

This is a unique opportunity to be involved in one of our new and exciting academies; designing and leading an innovative approach to learning and ensuring that learners achieve the highest outcomes and opportunities.
