FURTHER PARTICULARS

“We have some of the best companies and supply chains in our local area, and they all desperately need new talent and skills to help them grow. That is why the WMG Academy for Young Engineers is so important”

The late Professor Lord Bhattacharyya, Chairman, WMG

The WMG Academy for Young Engineers

The WMG Academy for Young Engineers is a new University Technical College for 14 - 19 year old learners, which opened in September 2014. Formed between a partnership of the University of Warwick (led by Warwick Manufacturing Group - WMG) and with the support of national, regional and local businesses such as Jaguar Land Rover, National Grid and Prodrive, who are committed to providing a better way of learning for the engineers of the future.

The WMG Academy focuses on engineering, information, digital and communication technologies and caters for up to 640 learners of 14 - 19 years from Coventry, Warwickshire and Solihull. The WMG Academy will initiate and support the development of well-educated and industry trained learners who not only have the qualifications but also the functional skills, knowledge and personal qualities to make an impact in the world of work and/or further and higher education.

Our vision

We will ensure that our learners have raised aspirations that will provide the motivational drive to succeed. Strong employer and further and higher education links, as well as a professional ethos and culture, will ensure the learners will be in demand from employers.

Our unique status of working very closely with some of the biggest employers in the region means that we have shaped the curriculum from day one to ensure we produce learners with a professional ethos and culture that is in high demand in today's working world.

The focus of the curriculum will be a series of projects – real business-focused, practical problems and challenges that reflect fully the world of work. Employers will provide mentors to help our learners get a full understanding of life in engineering. This ‘better way of learning’ means that education will be exciting for our learners. We will give them an experience of real value; one that will lead to a diverse range of positive progression pathways for every single learner.

Team working will be the norm and learners will work together to develop the skills that employers value. We are committed to developing team working, problem solving, creativity, leadership, communication, resilience and an ability to respond to change. As staff, it is our role to model those skills and behaviours to our learners in everything that we do.

The Role

The WMG Academy is looking for an enthusiastic and empathetic person who will work in partnership with teachers to support the learning of individuals and small groups, in line with the national curriculum, codes of practice and academy policies and procedures. You will assist in the promotion and development of inclusive learning and teaching throughout the Academy in order to give students every opportunity to achieve their best.

The Academy believes that all young people deserve to become world-class learners - to learn, enjoy, succeed and thrive in a first rate educational environment with excellent facilities, outstanding teaching and the most up-to-date resources available to them. You will benefit from visionary and supportive leadership and be empowered to develop your own skills.

This is a unique opportunity to be involved in a new and exciting academy; designing and leading an innovative approach to learning and ensuring that learners achieve the highest outcomes and opportunities.
